

Summary of data

Buckland Sites & Ovens Sites .pdf files:

- Descriptions of the bore sites
- Locations
- Construction details
- Bore depths and screened intervals
- Stratigraphy
- Additional geochemical analyses

Ovens Bank Storage .xlsx files

- Corrected head values
- Temperature corrected EC values
- Temperature data

Files are organised by locations

Streamflow .xlsx file

- River discharge data (streamflow) and EC data from the Ovens River at Peechelba

Notes:

- State observation bore data and streamflow data are from Department of Environment, Land, Water and Planning (State Government of Victoria) - <http://data.water.vic.gov.au/static.htm>
- Heights are in mAHD (Australian Height Datum)
- Times are Australian Eastern Standard Time (UTC + 10 hours) with no adjustment for daylight saving
- Streamflow data on <http://data.water.vic.gov.au/static.htm> is listed in ML/day and has been converted to m³/day
